Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Yost (US 733,927). Yost discloses a detachable, removable suspender including flexible straps being attached between upper and lower garment, page 1, col. 1, lines 9-13 that has an adjustable strap slide (8), page 1, col. 2, line 61. Further, distal ends of the strap include detachable fasteners (1, 17) that are attached to the upper and lower garments respectively. Furthermore, a decorative piece is attached to the suspender as shown in figure 1. Additionally, it is inherent the suspender of Yost can be attached to a short upper garment and a lower garment that is easily seen when attached.

In the alternative, it would have been obvious to one skilled in the art to recognize that the suspender of Yost can be attached to a short upper garment and a lower garment that is easily seen when attached or depending on the end use thereof. Also, it is obvious that the suspender of Yost when secured to the upper and lower body garments can be easily viewed when worn, since conventional suspenders are secured in that manner as known in the art

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2-3 are rejected under 35 U.S.C. 103(a) as being unpatentable as understood over Yost.

With regard to claim 2, the specification provided no unexpected results from the straps being colored differently. Therefore, it would have been obvious to one skilled in the art to recognize that the detachable, removable straps of Yost can be made of any desired color, pattern, etc as required for a particular application thereof.

Furthermore, with regard to claim 3, it would have been obvious to one skilled in the art to attach the decorative piece of Yost by any conventional fastening means as known in the art, depending on the end use thereof.

Response to Amendment

5. The amendment and arguments received on 11/15/04 have been considered and duly noted. In view of such this office action is being made FINAL. The claims as presented

Art Unit: 3765

are structurally met by the prior art patent of Yost '927. Further, it is inherent/obvious that the suspender of Yost when secured to the upper and lower body garments can be easily viewed when worn, since conventional suspenders are secured in that manner as known in the art.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
